

# Cisco ThousandEyes

## Core Competencies

## Certifications

Onstak is at the forefront of fostering business growth by offering Cisco ThousandEyes services that empower organizations with unparalleled visibility into their network performance. By strategically integrating ThousandEyes into its service offerings, Onstak provides businesses with a global perspective on their network, ensuring end-to-end visibility into both internal and external pathways.

This proactive approach allows for the swift identification and resolution of potential issues before they impact user experience, ultimately minimizing downtime and optimizing operational efficiency. Onstak's deployment of ThousandEyes facilitates real-time monitoring, collaborative problem resolution, and the analysis of historical performance data. By leveraging these capabilities, businesses can make informed decisions, enhance their network infrastructure, and create an environment conducive to sustained growth in today's dynamic digital landscape.

## What Do You Get?

- Global Network Visibility
- End-to-End Path Visualization
- Real-Time Monitoring
- Cloud Service Intelligence
- Internet Intelligence
- User Experience Monitoring
- Collaborative Problem Resolution:
- Historical Performance Analysis
- Improved Remote Workforce Productivity
- Enhanced Vendor and Cloud Service Management
- Efficient Hybrid and Multi-Cloud Deployments
- Faster Incident Response and Mean Time to (MTTR)
- Strategic Capacity Planning
- Secure and Resilient Network Infrastructure
- Improved Customer Experience
- Improved Remote Workforce Productivity

## How does OnStak help you drive technology with confidence?

Experience the future of monitoring with Cisco ThousandEyes – scalability, easy integration, high visibility and troubleshooting that empowers your business to thrive.

### Team

Diverse talents across various industries, we cross-train our team to seamlessly integrate technology, driving results.

### Culture

Our cheerful team, fueled by diverse perspectives, places clients first to collectively minimize implementation risks and empower each-other.

### CoE (Center of Excellence)

Our end-to-end communication and CoE process guarantees flawless transmission of every byte, instilling unwavering confidence in your technology.

## Who has benefited from our services?

Onstak plays a pivotal role in catalyzing business growth through its strategic deployment of ThousandEyes. By integrating ThousandEyes into its service offerings, Onstak empowers businesses with unparalleled network visibility and monitoring capabilities. Through real-time monitoring and global insights, Onstak ensures that companies can proactively identify and address potential network issues, minimizing disruptions and optimizing overall performance. ThousandEyes' ability to optimize application performance, offer cloud and internet intelligence, and facilitate collaborative problem resolution aligns seamlessly with Onstak's commitment to providing comprehensive solutions. By leveraging the power of ThousandEyes, Onstak not only enhances operational efficiency but also contributes to improved user experiences, strategic capacity planning, and a resilient network infrastructure.
